INSTRUCTIONS FOR THE EXECUTION OF FORM SRM-415 -
"SUMMARY OF PRODUCER'S PERFORMANCE - 1940 PARITY PAYMENT PROGRAM"

1. Form SRM-415 shall be prepared for each producer who is making application for the parity payment with respect to cotton, rice or wheat and who shares in wheat, (unless excluded as provided in 1940 General Letter No.4) cotton, tobacco or rice on a farm in the county where the acreage of the crop exceeds the respective allotment, unless it can be definitely determined by a visual inspection of forms in the county office for the farms in which he is interested in the county that the sum of his acreage shares of the planted acreages of these crops on all such farms does not exceed the sum of his acreage shares of the acreage allotments (or permitted acreages, where applicable in the case of wheat) for all these crops.
2. Enter the name of the county and the name of the producer in the spaces provided.
3. For each farm in which the producer has an interest in one or more of the crops designated in 1 above:
 - (a) Enter in column (1) the farm serial number.
 - (b) Enter on separate lines in column (2) the names of such crops (cotton, rice, tobacco, or wheat) in which the producer is interested on the farm in question.
 - (c) Enter in columns (3) and (6) respectively, following the name of each crop, the total acreage of the crop planted on the farm for harvest in 1940, and the farm acreage allotment for such crop.
4. The entries to be made in columns (4), (5) and (7) will be determined in accordance with (a), (b), or (c), below whichever is applicable.
 - (a) If the division of the crop as shown on Form ACP-111, "Application for 1940 Parity Payment", (or as would be shown if there were an application) is on the planted acreage basis:
 - (1) Enter in column (4) the producer's acreage share of the planted acreage, from the Performance Report (or Form ACP-111).

- (2) Enter in column (5) the percentage share, expressed to the nearest tenth of a percent, obtained by dividing the entry in column (4) by the entry in column (3).
 - (3) Enter in column (7) the result obtained by multiplying the entry in column (6) by the entry in column (5).
- (b) If the division of payment for the crop is on the basis of the acreage shares which the county committee determines the various producers on the farm would have had if the entire acreage in the acreage allotment had been planted to the crop in question in 1940:
- (1) Enter in column (7) the acreage share so determined for the producer in question.
 - (2) Enter in column (5) the percentage share, expressed to the nearest tenth of a percent, obtained by dividing the entry in column (7) by the entry in column (6).
 - (3) Enter in column (4) the result obtained by multiplying the entry in column (3) by the entry in column (5).
- (c) If the division of payment for the crop is on a percentage basis:
- (1) Enter in column (5) the producer's percentage share.
 - (2) Enter in column (4) the result obtained by multiplying the entry in column (3) by the entry in column (5).
 - (3) Enter in column (7) the result obtained by multiplying the entry in column (6) by the entry in column (5).
5. After entries have been made in accordance with 3 and 4 above for all farms, enter the totals of columns (4) and (7) in the spaces provided. If the total of column (4) exceeds the total of column (7), no payment under any parity application may be made to the producer in the county. In such cases where the producer has an interest in farming operations on farms in other counties in the State, a copy of Form SRM-415 must be sent to the State office for consideration as provided in 1940 General Letter No. 4.
